

## Brake Fluid

Brake Fluid is recommended for complete fluid replacement and “top-up” in most cars and light trucks.

### **APPLICATIONS:**

Meets the following specifications:

- SAE J1703, J1704.
- FMVSS No. 116 DOT 3 and DOT 4 Motor Vehicle Brake Fluid.

### **BENEFITS:**

Engineered to provide outstanding performance in today’s high temperature braking systems.

Unique Low Moisture Activity (LMA) formulation provides maximum wet boiling point protection against vapor lock brake failure when compared to leading brake fluids.

Recommended for all anti-lock braking systems (ABS), hydraulic drum and disc braking systems and hydraulic clutches requiring DOT 3 or DOT 4 fluids.

Provides superior fluidity at low temperatures for optimum braking response.

<b>TYPICAL PROPERTIES:</b>	
Appearance	Clear colorless to yellow liquid
ERBP, °C	257
Wet ERBP, °C	156
pH, (1:1 In 80 ML Ethanol + 20 ML Distilled Water)	8.9
Kinematic Viscosity @ 100°C, Cst	1.9
Kinematic Viscosity @ -40°C, Cst	1542
