High Performance Greases

Aegis Oil have a range of High Performance Greases. All are available in 450 gram cartridges, 2.5kg tins, 20kg pails and 55kg drums.

LIQUID GREASE:

Containing Molybdenum Disulfide is an all purpose lubricant which combines the advantages of a solid grease with those of a lubricating oil. Provides lubrication, reduced noise and vibration, reduced friction and anti-rust and anti-corrosion properties to give full protection in metal parts and inaccessible places. Working temperature of -34 and 110 degrees C.
